Siddharth Bhardwaj

Software Developer

Gurgaon, Haryana — siddian17.7@gmail.com — +91 8816096346 — linkedin.com/in/siddharth

EXPERIENCE

Fenado.ai   Noida
Software Developer   Feb, 2025 – Present

- Built and launched a **Flutter app** for a media-tech startup on **iOS and Android**, achieving **5K+ downloads** on each platform, **95% crash-free sessions**, and a **5.0 rating**.
- Delivered an end-to-end solution—**Flutter mobile app**, **React admin panel**, and **sales portal**—for a job marketplace, onboarding **200+ users** in the first month.
- Implemented key features including a **notification system**, **AI-driven incident reporting** to automate issue logging, and **referral-based payout logic for sales agents**, improving operational efficiency and replacing manual efforts.
- Led **Stripe integration** for referral payouts: built **onboarding**, managed **secure transfers** via **Cloud Functions**, and implemented **Pub/Sub-driven webhook handling**, automating over **£10k/month** in payouts.

Clipwise.ai   Gurgaon
Software Developer   June, 2024 – Jan 2025

- Utilized **Django backend** and **Alpine.js frontend** to develop features like **voice cloning**, **avatar videos**, **pre-defined video templates**, and **seasonal designs**, boosting **user engagement**.
- Handled end-to-end **full-stack feature development**, including **frontend**, **backend**, **database design**, **testing**, and collaborating with **designers** to finalize and deliver a **seamless user experience**.
- Worked with **state-of-the-art models** to identify **shortcomings**, analyze **performance**, and decide between using **APIs** or deploying models on platforms like **RunPod** for efficient execution.
- Improved **customer onboarding** and streamlined the **signup-to-payment workflow**, resulting in a significant increase in **signup conversion rates**.

Clasc Artigenze Solutions   Remote
Backend Developer Intern   June, 2023 – Dec, 2023

- Created and optimized **AWS** Lambda functions for secure CRUD operations on the **MySQL** Database.
- Designed and configured the pipeline for file storage in AWS S3 Buckets, while using AWS Media-Convert templates for resolution conversion.
- Designed and implemented an entire webapp from start to finish for handling user input, using ReactJS and AWS Amplify.

EDUCATION

IIIT Sri City, Andhra Pradesh   2020 - 2024
B.Tech
Courses: Data Structure and Algorithm, Operating System, Computer Networking, DBMS, Aritificial Intelligence, NLP

SKILLS

- **Languages:** JavaScript, Python, Dart
- **FrameWorks:** Django, Node.js, Flutter, Express.js, React.js
- **Tools:** Docker, GIT, PostgreSQL, MongoDB, JWT, Celery, Tailwind, Pub/Sub, GCP, Firebase

PROJECTS

MentorShala – *(React.js, Node.js, Express.js, MongoDB, CI/CD, Docker, Mochachai)*   Link

- **Purpose:** Developed a platform to connect mentors and mentees, providing a unique interface to facilitate mentorship and networking.
- **Unique Features:** Utilized a Tinder-like interface to match mentees with mentors, implemented chat functionality to enable seamless communication, and created a community section to foster collaboration.
- **Project Management:** Employed agile development methodologies to manage the project, conducting thorough testing and debugging to ensure application functionality and maintainability.

CERTIFICATIONS

- **M**eta Frontend professional certificate   Coursera
